Agribusiness 2021	Applications are open for program commencing April 2021

Australian Rural Leadership Program (ARLP) Courses 26, 27 and 28

There will be an impact on the delivery and structure of the ARLP and our team is working hard to develop quality programs that draw on multi-modal delivery methods and locations. We are investing in learning platforms and technology that will support this new methodology and will work to support the concerns of all participants regarding their access to digital connectivity. The overseas session seems unlikely. As a result, we are looking at options that include deep cultural immersion and experiences to challenge multiple perspectives and scale across national and international considerations.

ARLP Course 26	Session 4 will proceed in October 2020 using multi-modal delivery methods and a decision regarding their final (international) session and our alternatives will be communicated in time.
ARLP Course 27	Session 1 will commence in November 2020. There will be a change to the session order to allow the opportunity for face-to-face sessions to take place where possible. The curriculum focus for each session will therefore be in a different order to the past. Face to face learning will take place wherever possible, most likely in small regional clusters and multi-modal delivery methods used. We will be guided by stated restrictions and government regulations and guidelines for each session.
ARLP Course 28	Applications are open, anticipated commencement is June 2021
